

COCOMO II Phase needs to be done! Probably by Monday evening

Need to update GUI Descriptions

Report titles need to be added to Reports Details Pane.

Specified recipients need to be added to the Reports Details Pane.

Verify Use-case for Edit Settings (goes to local file in use-case dia)

Delete contacts/departments message?

Discuss behavior for deletion (blank details pane or next on list?)

All changes saved to database as a step in descriptions?

Add preview window

Add email message window with report results

Need to figure out format for report results (non-critical atm)

Pop-up window with small list and detail's pane for add/remove

"Maximum Results" needs to be added to Reports Details Pane.

Need to compute Unadjusted Function Points

Need group to vote on Product Backlog Items

Need to choose Backlog Items for first sprint

Need to extrapolate tasks for each item in Sprint Backlog

Need to review Glossary for consistent terms.
